**REFUELED US ARMY Y-66**

**According to the VA Compensation and Pension Service Bulletin for January 2010 various vessels are listed as qualifying for presumptive herbicide exposure. Among those listed are some of the above mentioned. It would follow that a ship that delivered supplies or fuel to them would also qualify. The USS Kennebec AO 36, on which I served , did just that on the above occasions. This information was obtained from the ships Deck Logs.**
